Service Tees – Keyhole Tooling

BRISTLE BLASTER® ADAPTER

BLASTING WITHOUT GRIT

We are pleased to introduce you to the **Bristle Blaster® Adapter** to clean the pipe surface before applying an anode. We offer this in addition to the Right Angle Grinder and Face Grinder.

- works well to remove yellow jacket.
- produces a clean, somewhat rough surface so the weldment will better adhere to the pipe.
- produces a surface similar to a sand-blasted surface without the sand.

UNITEC SAW ADAPTER

In addition to the Sioux and Fein Saws, we now offer the Unitec Air Reciprocating Saw.

- 1.3 HP
- 0 -1800 strokes per minute
- 46 cfm @ 90 psi
- cut steel pipe & channel 1/2" to 4" dia
- cut plastic pipe to 8" dia
- 1 1/8" blade stroke for fast, efficient cutting
- uses standard saw blades or thicker and heavy-duty double-tang saw blades

TOOL BAGS

Kravitch Machine Company now offers a line of waterproof rugged tool bags with a plastic hard bottom and double stitching reinforcement to accommodate Your Keyhole tools. Pictured here are two of the most popular bags. Please contact us for a more extensive list.
